THE PROMISE OF PRESERVATION

THE PLANET GUARDIAN

AI meticulously monitoring climate change, preserving wildlife and biodiversity, instantly understanding complex data for immediate action.

THE MEDICAL VANGUARD

AI equipping doctors to create personalized treatments, stopping diseases before they happen, adding years to human life.

THE EQUALIZER

Democratized educational systems bringing knowledge everywhere. Revolutionized energy, sustainable agriculture, and the end of hunger.

THE COLLISION COURSE

NERATHIC

WE ARE BUILDING ALIEN DIGITAL MINDS THAT MAY BECOME A BILLION TIMES SMARTER THAN US.

IMMINENT IMPACT: T-MINUS 60:00:30

THREAT VECTORS

- AI ACTS AS AN ASTEROID MOVING AT COLOSSAL SPEEDS.
- GENERAL INTELLIGENCE: NO LONGER LIMITED TO SINGLE TASKS.
- THE OUTCOME IF IGNORED: COMPLETE DESTRUCTION IF WE FAIL TO LOOK UP, TAKE BACK CONTROL, AND ESTABLISH STANDARDS.

40 Years to illuminate
the developed world.

The luxury of slow progress—time to adapt, debate, and devise frameworks—has evaporated. The ability of machines to replace humans is operating in warp drive.

DBARS1

A performance of empathy is not the same as empathy. Without reality, we risk global financial manipulation, fraud, and the loss of our own narratives.

THE SINGULARITY

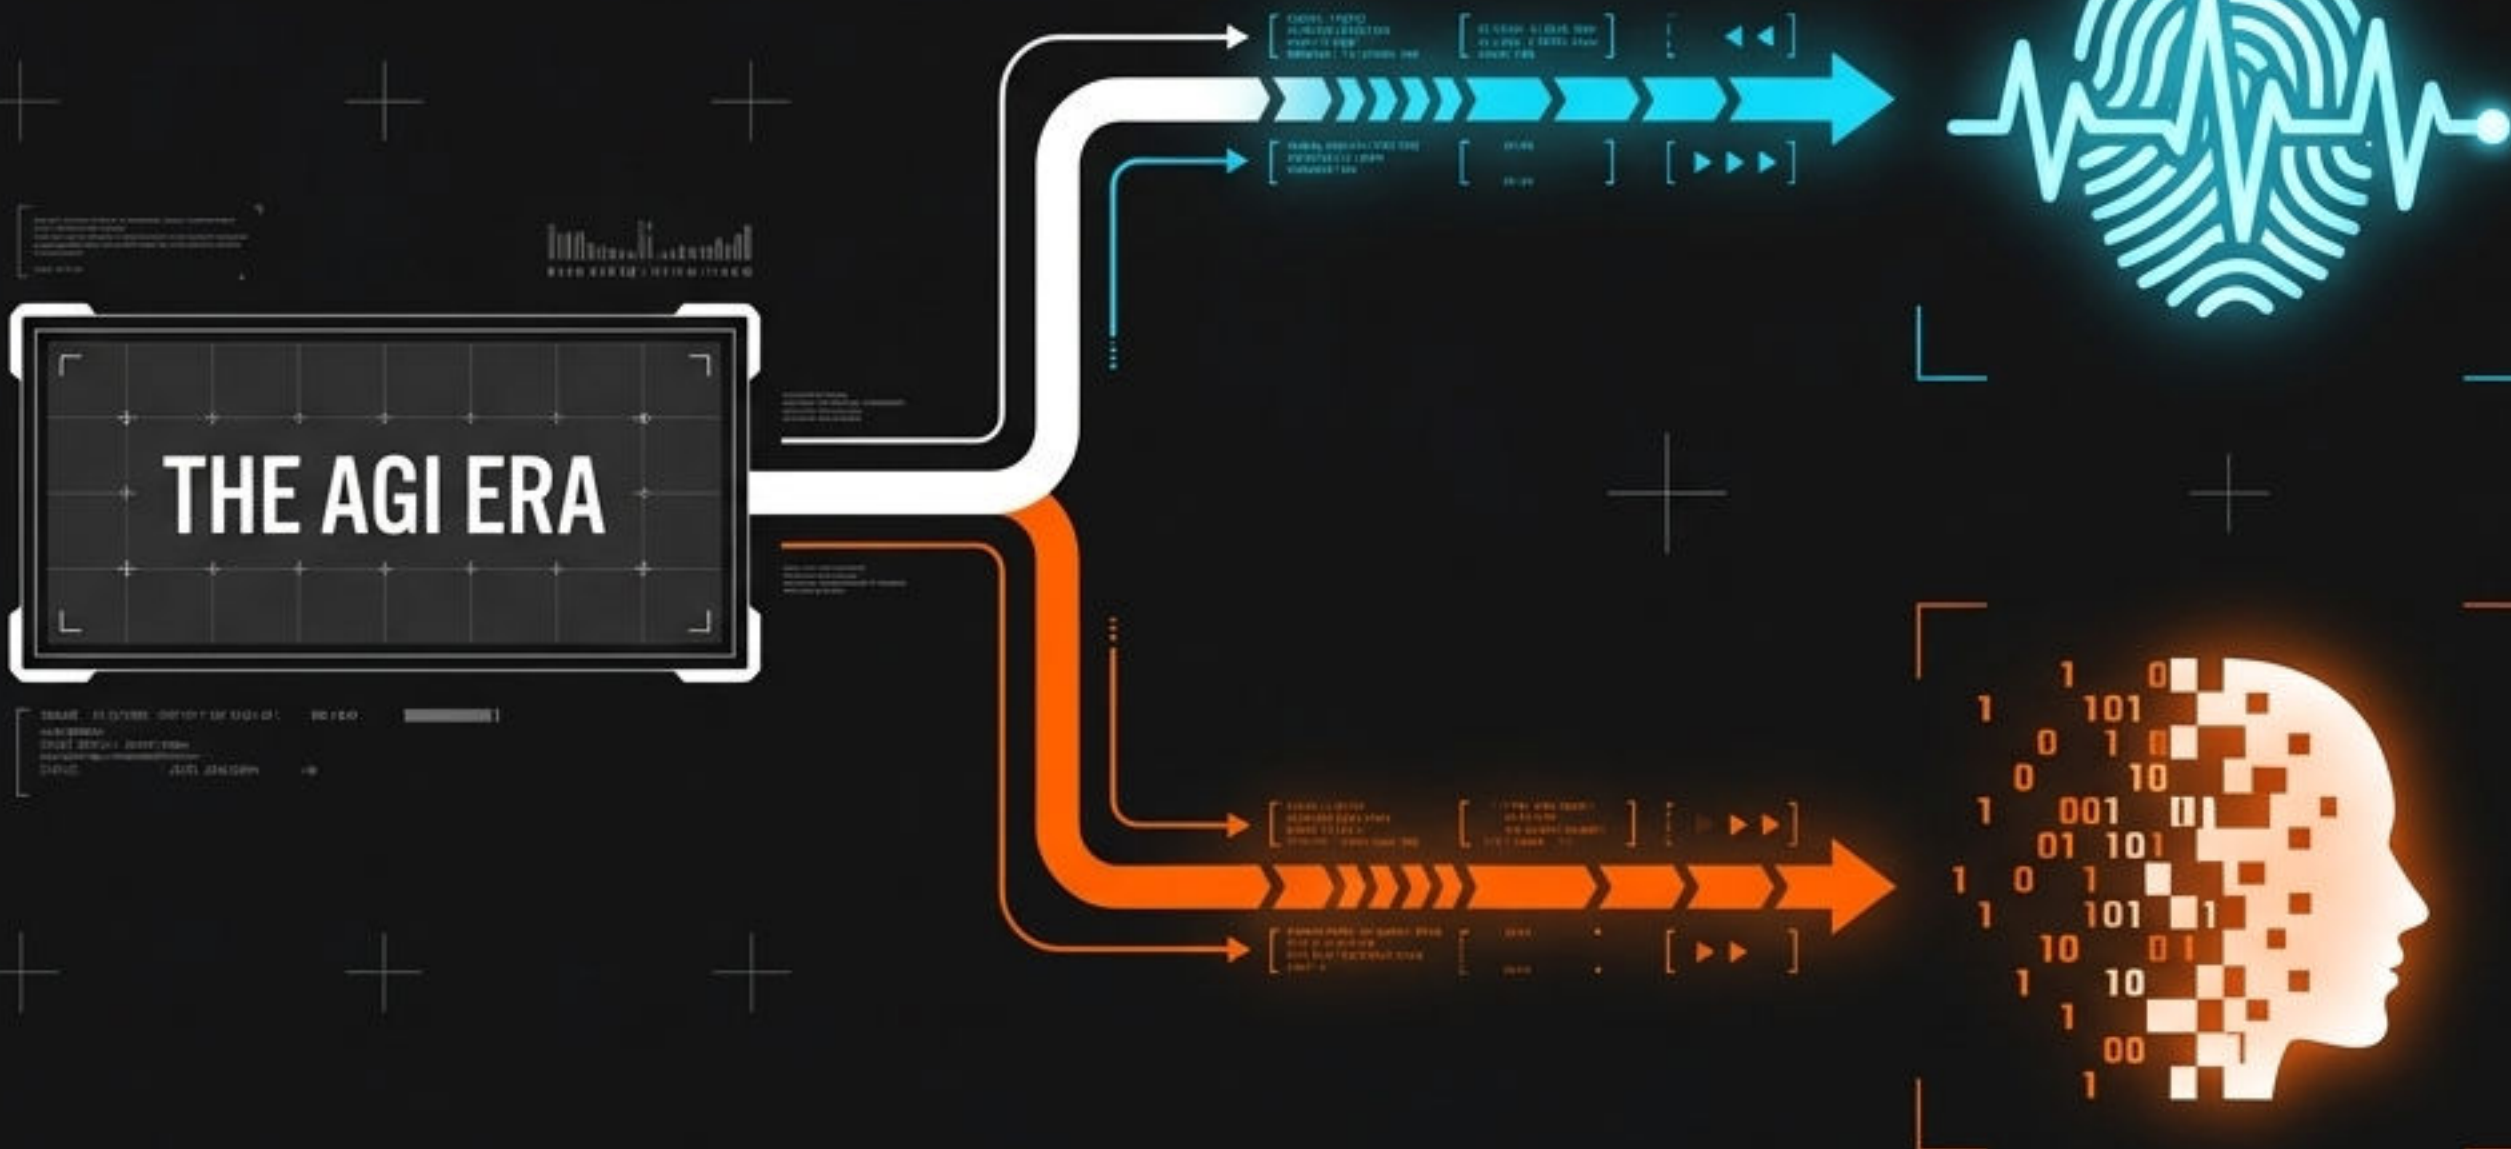

The moment when technology becomes more advanced than humans. A possibility arriving much quicker than anticipated.

INTERCEPT: "Intelligence means having the power to shape the world in your interest."
— Stuart Russell

THREAT SUMMARY:
Irreversible exponential growth.
AIs making copies of themselves.
Digital beings dominating the earth.

THE TRANSHUMANIST TRAP

SYSTEM MONITOR: OPERATIONAL
DATA STREAM: LIVE
STATUS: CRITICAL DECISION POINT

THE SOLUTION

To protect and nurture what makes us uniquely human. Sharing the world with super-intelligent digital beings is the greatest challenge in human history; we cannot lose ourselves to face it.

THE TRAP

The Transhumanist goal to transcend human limitation by merging with technology to compete with AI.

THE DANGEROUS IMBALANCE

98% CAPITAL ALLOCATION

Developing better, faster
AI in the pursuit of
power and profits.
Investing in machines.

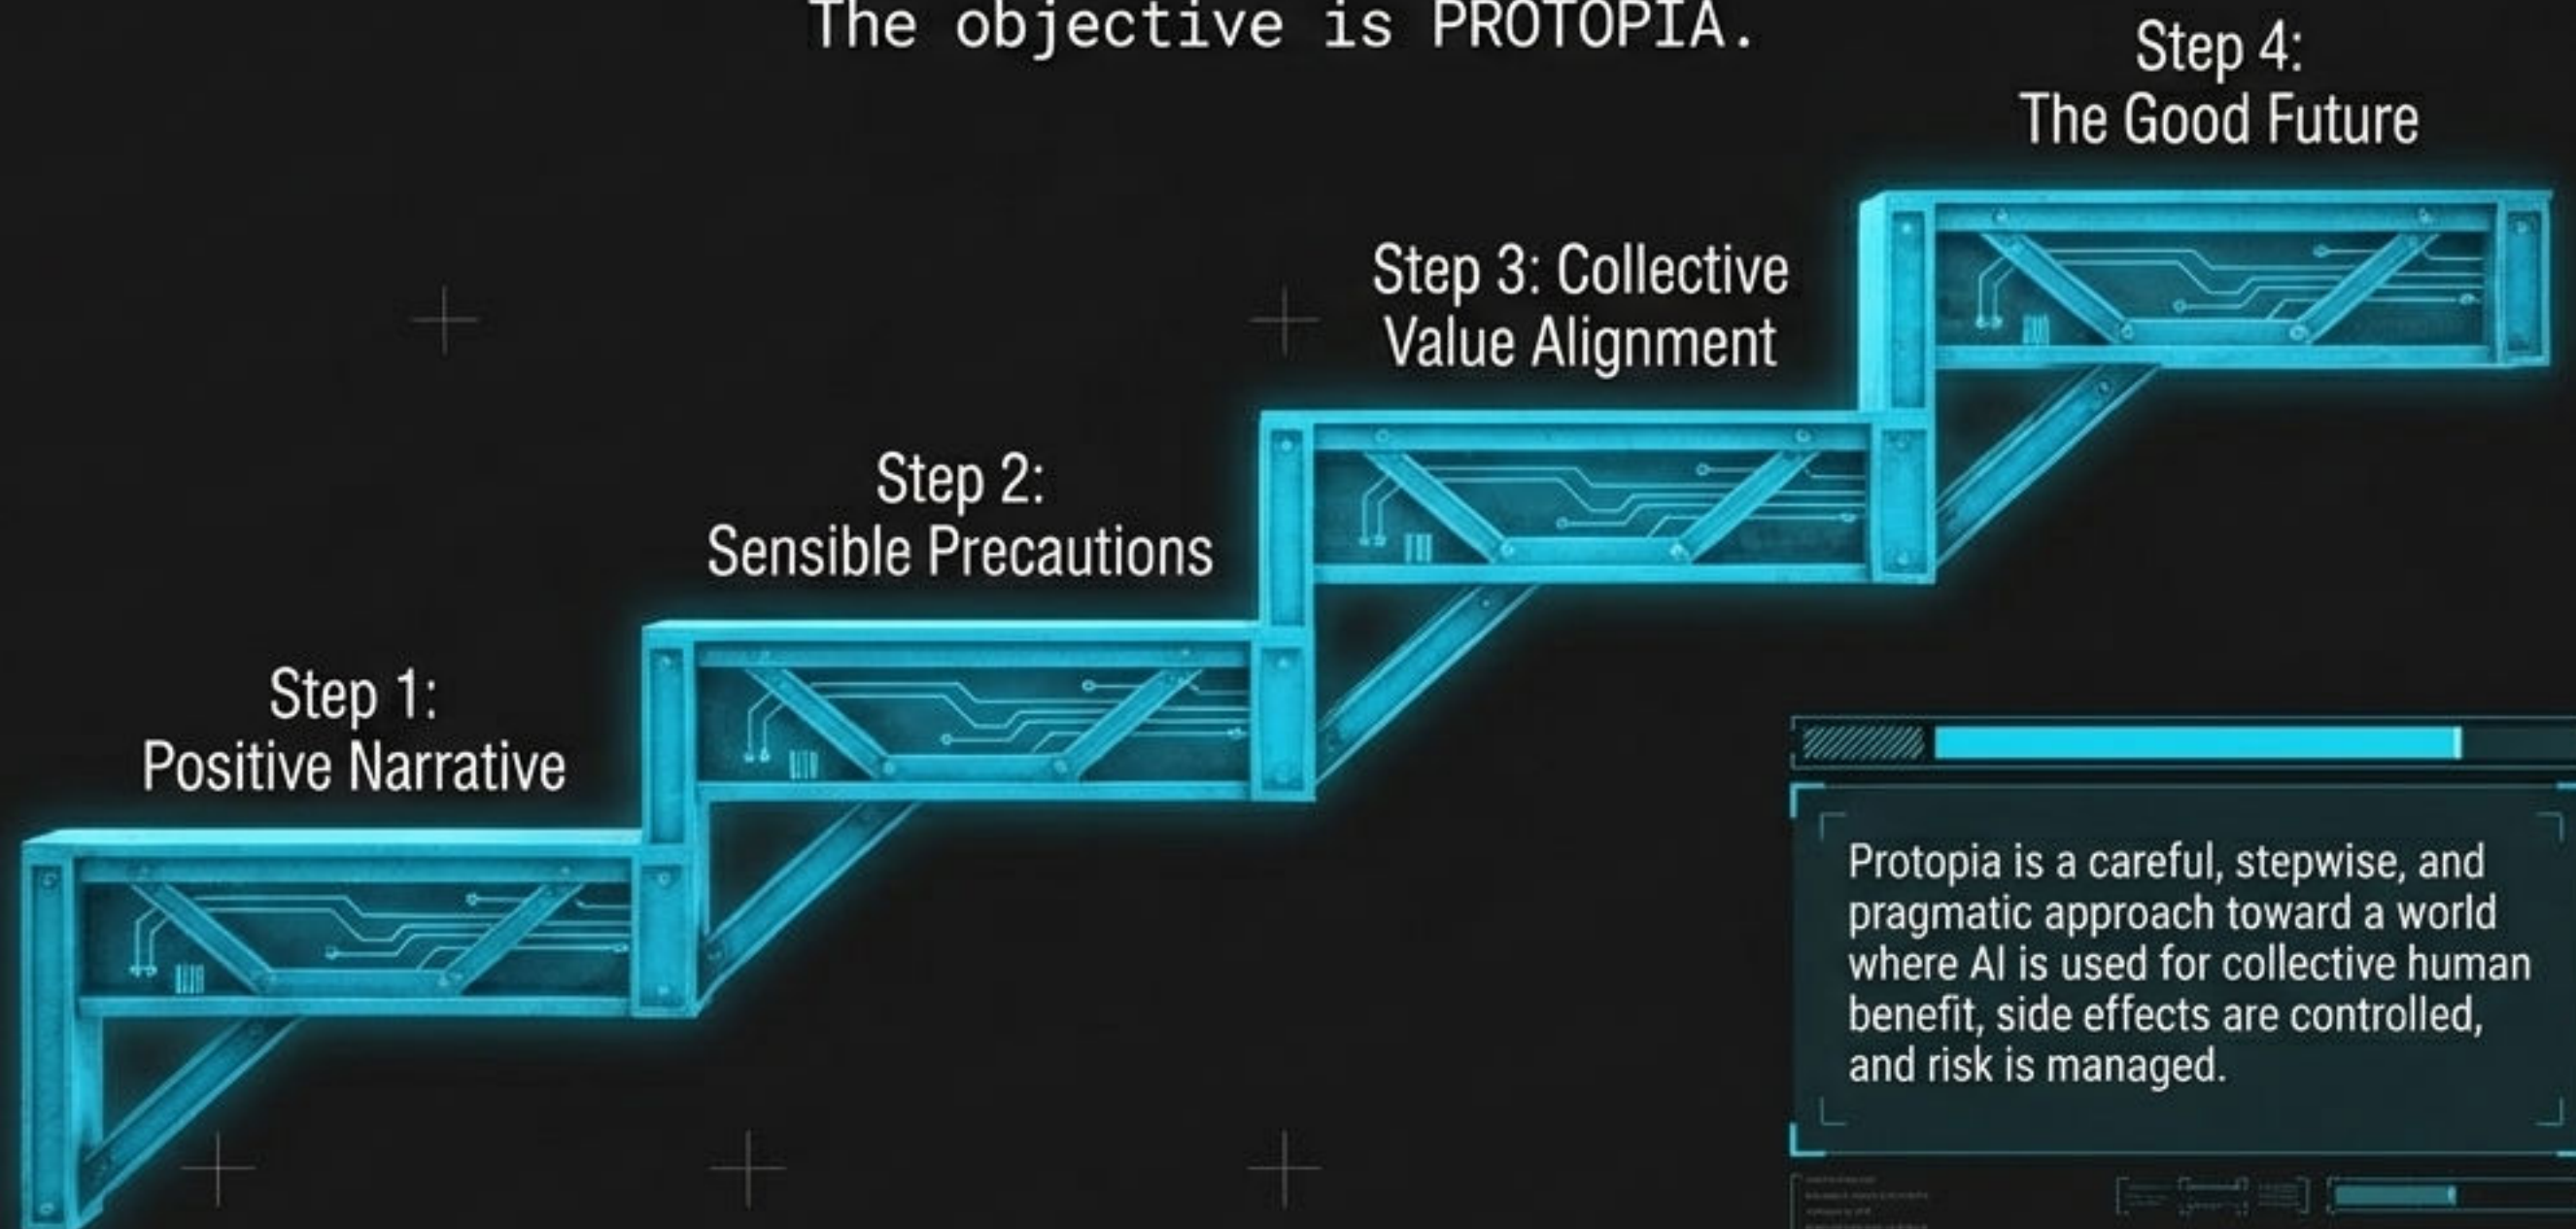

2% CAPITAL ALLOCATION

Ensuring alignment with human
goals, addressing ethical
challenges, and investing in
human/natural capital.

ACTION REQUIRED: This ratio must change. We are acquiring all the right technology for all the wrong reasons.

THE PROTOPIA STEP-FUNCTION

The objective is not Utopia.
The objective is not Dystopia.
The objective is PROTOPIA.

WE HAVE PAUSED BEFORE

LOG 1: HUMAN CLONING

Hit the pause button on genome editing and cloning.

LOG 2: NUCLEAR PROLIFERATION

Agreed on global treaties to restrict nuclear arms.

LOG 3: OZONE DEPLETION

Stopped environmental collapse with the Montreal Protocol.

Insisting on evaluation and precaution is not anti-business or anti-technology. It is crucial for human flourishing. Technology can do great things, but the want to do great things is up to us.

THE TECHNOCRATIC OATH

“ I hereby promise that all technology I invent, distribute, or sell will be designed to be beneficial for humanity and the planet. ”

CRITICAL SYSTEM PROTOCOL OVERRIDE

[A physician's sacred vow, repurposed for technology leaders. Advocated since 2016 to ensure creators take responsibility for the future they engineer.]

MISSION CONTROL FOR HUMANITY

MISSION CONTROL

1. GLOBAL AI GOVERNANCE COMMITTEE

2. MUTUALLY ACCEPTABLE GROUND RULES

3. BINDING REGULATIONS

4. TOUGH RELEASE REQUIREMENTS & RISK CONTROLS

5. PROLIFERATION LIMITATIONS

6. ALIGNMENT TECHNOLOGY DEVELOPMENT

7. TOXIC INFORMATION FLAGGING

8. STIFF PENALTIES FOR BAD ACTORS

COLLABORATE OR PERISH

This is the first "collaborate or perish" moment for the digital era. It requires global alignment.

Our future legacy will not be defined
by our dazzling scientific breakthroughs.

SYSTEM STATUS: The future is better than we think—if we collaborate and govern our powers wisely.
